Jessie is a beautiful blue eyed twelve year old girl. Jessie is a very loving, caring child who loves to ride her bike, play outside, and listen to music.

Jessie is looking forward to a family that will love her and help her feel safe. Jessie is curious and would benefit from parents who encourage her thirst for exploration and support her extracurricular activities. She hopes her family will be active and fun and allow her to enjoy outside activities. An adoptive family for Jessie should be consistent and provide structure and boundaries. Jessie is close to her sister and maintaining contact is very important to her.

The most appropriate adoptive family is a committed household with no other children, or one that has children older than Jessie. Lots of activities are a must!
