Kristina is a warm, vivacious, fun loving teenager (she will soon be turning seventeen years old). Like most girls her age, Kristina loves listening to music, especially rap music (her favorite artists are 50 Cent and G-Unit). She also loves shopping. She is very active and enjoys gymnastics. She enjoys all different types of food, her favorites, however, are pizza and soul food.

Kristina thrives on one on one attention and responds to positive reinforcement. Kristina is currently in therapy to help her deal with issues of loss. She would benefit from parents that are patient and nurturing. Kristina is delayed developmentally, but with the help of a loving, committed, stable family, she can achieve her full potential.
